**STATEMENT**

*As a family law mediator, I assist in the negotiations to amicably resolve any and all family law issues out of court, as well as guide the individuals with the preparation and filing of all necessary court documents. The mediation process is completely confidential and all agreements reached are voluntarily made by the parties. I provide the parties with a protected environment with which to speak positively and creatively, allowing the parties to discuss issues with mutual respect. The end goal is arriving at an acceptable and workable global agreement that specifically focuses towards the future.*
